Editorial Policy

This report summarizes the achievements and evaluation results for FY2002, which is the fiwhat Kawasaki wants to be in the year 2010. The report also presents our 4th Environmental Management Activities Plan (EMAP), which specifically describes the steps we will take to realize our Environmental Vision. This information indicates that our environmentally conscious efforts are shifting from environmental protection activities to environmental management activities for sustainability.

As the internal company system hao位 $\ /\$ ronmental management.

The ways that our products contribute to society in terms of environmental protection is presented with concrete examples of both improved product performance (energy saving, light-weight design, etc.) and environmental protection technology development.

In addition to company-specific data, this report discloses the environmental impact data by production base.

We hope this report will help you understand our position on the environment as well as make clear the plNmenx僊走 亂 vx僊走 亂 vx僊 + a a a a a will as Environmental Management for Sustainability concept.

About This Report

Reporting Scope

This report covers information on environmental aspects of head offices, technical institutes, branch offices, and works of Kawasaki in Japan. Affiliates include Kawasaki Shipbuilding and Kawasaki Precision Machinery (KPM) but do not cover overseas offices.

Reporting Period

The information contained herein is reported for the period of April 1, 2002 to March 31, 2003, which is our FY2002.

Schedule for Future Issues

This report will be issued annually.
