

## Action POINT

### Cleaning Exhaust Gas

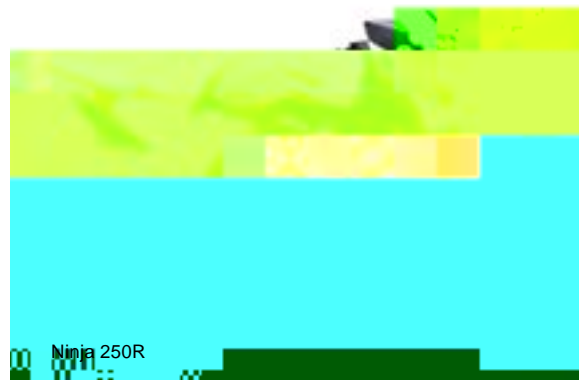

In FY2007, continuing from the previous year, we installed computerized fuel injection systems in three of our light motorcycle models—the Ninja 250R, the KLX250 and the D-TRACKER X. These models are

KLX250

Ninja 250R

### Comparison of Japanese Motorcycle Emission Regulations (Motorcycle Mode Standard)

- 4-cycle regulated by 1998/1999 standard
- Light motorcycle and compact motorcycle regulated by 2006/2007 standard

### Start of the 2006/2007 Regulation for Japanese Motorcycle Emissions

| Regulation  | Carbon monoxide (CO) (g/km) | Hydrocarbon (HC) (g/km) | Nitrogen oxides (NOx) (g/km) |
|---|-----------------------------|-------------------------|------------------------------|
| 4-cycle regulated by 1998/1999 standard                                 | 13.0                        | 2.0                     | 0.30                         |
| Light motorcycle and compact motorcycle regulated by 2006/2007 standard | 2.0                         | 0.3                     | 0.15                         |

### Promotion of 3R
