Kawasaki pursues “Earth-friendly” manufacturing

Together with about 100 group companies in Japan and overseas, Kawasaki Heavy Industries oversees the formation of a “technology corporate group”. Our technological capabilities, polished over a history that exceeds a century, send diverse products forth into wide-ranging fields that go beyond land, sea, and air, extending from the ocean depths to space. Through the development of unique and broad businesses unmatched elsewhere, we will continue to create new values that solve the issues facing our customers and society.
